

The outstanding components 2021~2022

Fine Sinter Co., Ltd.

Part Name:

Sintering of disconnect partsEnd Use and Function:

Installed in 4WD vehicles as a component of the world's first "disconnect mechanism"

Porite Taiwan Co., Ltd.

Part Name:

Ring Gear

End Use and Function:

Cordless drill gearbox

Porite Taiwan Co., Ltd.

Part Name:

Double Chain Sprocket

End use & Function:

Applied in E-VCT of the engine of SUV and pickup Truck.

Porite India PVT. Ltd.

Part Name:

Flux Ring

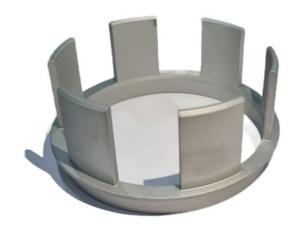

End use & Function:

Commercial Vehicle Engine Cooling System.

Value Addition:

Near Net Shape

Porite India PVT. Ltd.

Part Name:

Single sided stator

End use & Function:

Electric Vehicle Motor

Value Addition:

Conversion from Laminated Steel to PM

Porite India PVT. Ltd.

Part Name:

Arm Comp Decomp

End use & Function:

Engine Decompression

Value Addition:

Net Shape Compaction

Porite India PVT. Ltd.

Part Name:

Crown Face Gear

End use & Function:

Solar Tracking System

Value Addition:

Complex Geometry Compaction

Porite India PVT. Ltd.

Part Name:

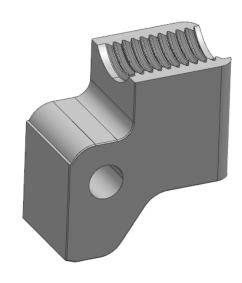

Lock Vise

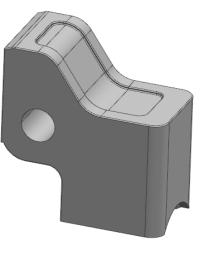

End use & Function:

Power Tools

Value Addition:

Conversion from Conventional Maching to PM

GKN Sinter Metals, Pimpri, India.

Part Name:

Plate Gear Shift Cam

End Use & Function:

Motorcycle Gear Shifter Mechanism

Conversion Part:

Casting to PM

GKN Sinter Metals, Pimpri, India.

Part Name:

Holder Spring

End Use & Function:

Spare Wheel Mounting Assembly

Conversion Part:

Sheet Metal to PM

GKN Sinter Metals, Pimpri, India.

Part Name:

Base Plate, Decompressor

End Use & Function:

Motorcycle Decompression Unit

Conversion Part: Casting to PM

GKN Sinter Metals, Pimpri, India.

Part Name:

Internal Ring Gear

End Use & Function:

SUV Starter Motor

GKN Sinter Metals, Pimpri, India.

Part Name:

BOB Weight, Decompressor

End Use & Function:

Motorcycle Decompression Unit

Conversion Part:

Casting to PM

Thank you.
